Meera Iyer

Chennai, India | meera.iyer@example.com | github.com/karpathy

B.Tech Electronics and Communication student with a strong research record, applying for a PhD in robotics in the USA.

Education

B.Tech Electronics and Communication Engineering, Anna University, 2023-2027 (expected)
CGPA: 9.1 / 10

Skills

C++, Python, ROS2, OpenCV, PyTorch, embedded systems, SLAM, control theory

Projects

Vision-Guided Mobile Robot
Built a ROS2 robot that navigates indoor corridors using ORB-SLAM3 and a depth camera; 94% success over 50 runs.

Edge Gesture Recognition
Deployed a quantised CNN on an ESP32-S3 for gesture recognition at 18 FPS.

Experience

Research Intern, IIT Madras Robotics Lab (Summer 2026): worked on multi-agent path planning.

Achievements

GRE 322 (Quant 168, Verbal 154); TOEFL 108.
Author, 'Edge SLAM for Indoor Robots', student track, IEEE INDICON 2025.
Best final-year project nominee, 2026.
