Rahul Sharma

Jalandhar, India | rahul.sharma@example.com | github.com/karpathy

Final-year B.Tech Computer Science student focused on applied machine learning and retrieval systems. Looking for a funded MS in Computer Science or AI.

Education

B.Tech Computer Science and Engineering, Lovely Professional University, 2023-2027 (expected)
CGPA: 8.2 / 10

Skills

Python, PyTorch, FastAPI, SQL, Docker, Git, LangChain, Retrieval-Augmented Generation

Projects

RAG Chatbot for Course Notes
Built a retrieval-augmented chatbot over 4,000 pages of course notes using sentence-transformer embeddings, FAISS and a FastAPI backend. Cut answer latency from 6s to 1.2s with caching.

Resume Parser
Fine-tuned a small transformer to extract education, skills and experience from resumes; 91% field-level accuracy on a 500-document test set.

Experience

ML Intern, IndiQus Technologies (May-July 2026): built a document classification pipeline used by the support team.

Achievements

Runner-up, Smart India Hackathon 2025 (team of 4).
Teaching assistant for the Python programming lab.
